

LAWN MAINTENANCE – Program 2

This season-long program is for our many busy customers who do not have time to devote to routine weekly grass cutting and the time consuming chores with lawn and garden maintenance. Our program is a cost-effective way of keeping your lawn the envy of the neighborhood with minimal personal bother and inconvenience. For the entire season, **Program 2** includes:

- Mowing,
- Weed Control,
- Aerating,
- Thatching,
- Lawn edging,
- Leaf removal,
- Re-seeding or re-sodding,
- Insect Control,
- Disease control,
- Fertilizing,
- Liming.

Our mowing depth is carefully checked throughout the season to insure a proper, well-balanced lawn height throughout the entire lawn. Finally, to prevent your lawn from “strangling” and to permit it to “breathe, drink and eat” properly, we will always remove grass clippings.
